The Daily Standard. all Service from New Westmin-ster to Cariboo. Many persons who demand retrenchment in the public expenditure usually charge the officials with swallowing up all the revenue. Now, whilst we are not pologist for the high salaries paid Three Doors from St. Nicholas Hotel, to some of the civil staff-high out of proportion to the service performed-we are at the same time not disposed to admit that all, or even the largest part GENERAL OUTFITTER. of our expenditure, is expended on officials. Whatever extravagance there may be with respect to official salaries,— and whatever saving there might be made by revision of the Civil List, and judicious cotrenchment, there are still other depertments that would not suffer materialy if revised, and if retrenchment were applied to them. Surprising as it may appear to some, our mail service costs us in 1870, the sum of \$36,000, and, possibly, when the accounts shall have been footed the amount will be something more. Of this sum \$ 16,000 is paid for carrying the mail from New Westminster to Cari boe-a distance, possibly, of over five hundred miles,—of which nearly two hundred is water communication. Now, the opinion of some, the service sekly, for eight months, in the year, d semi-monthly for four months, has been performed cheaply at that rate,— sad that, in the opinion of all, the ser-vice has been performed well—with great regularity, safety, and general satisfaction, by the present contractor. On the other hand, there are those who hilst not depreciating in any way the mails have been carried over this long line, are of the opinion that the service can be performed with as great regularity, safety, and convenience, at a lower rate than it is now done. Of the correctness of the assertion we have authority deserving of consideration. It is, however, grounded mainly on the proposal to run two-horse instead of four se wagons. Looking at it in that light, the assertion appears quite reasto believe that it may be true. divided; and we think generally against neidentally too large a sum for a of fare for passengers as a part of the contract. But when the contract is silof by the government. The call recently sened for tenders by the government or any other conveyance. The intermediate—between the extremes—seems by many to be the cheapest mode of carrylog the mails, and at the same time afwould not be tolerated. Hence economy

If a country can afford to expend public money in subsidizing mail coaches with the object of carrying passengers as well as mails, it ought to insist on a low rate Corner of Douglas & Pandora Streets. ent as to carrying passengers, and merely confined to mail service, it must be considered simply as a matter of carrying the mails and nothing more; hence regularity of transmission being conceded, the next question is simply one of economy which is one that cannot be lost sight as the government. The cell recently requires the applicant to state the rate for four-horse, and two-horse wagons, fording reasonable accommodation to the travelling public,—and the ready transmission of express matter. We have no healtation is saying that any conveyance last that a two-horse covered wagon terriew, will please address "C. H." Post Office traview, will please address "C. H." Post Office oct Into the conveyance oct Into the conveyance of th or no economy, that at least must be hed. There is one feature connected with the call for tenders that seems to us to be questionable: That is, calling for a single contract for carrying the mails all the way from New Westminster to competent persons as well as interested parties, it is alleged that if the service had been divided into several contracts instead of gaing one it would be contracts.

ARON D. Wilness, John Robertson, Dated Victoria, V, I., B. C., 28th Sept. 1870 se27 instead of going one, it would have been taken up much more readily by different contractors, and with more certainty of nomy. We certainly think that the contract would have had less of had been divided into two more, giving a fair opportunity men of small capital to compate. to men of small capital to compete; but we are not quite so clear as to the although there are not wanting those who allege that in that way a gain ald be insured. Another point that has struck every one as remarkably singular, is, calling for tenders for one, two, or three years, from next March.

It is generally conceded that we shall be admitted into the Dominion in July ext. After that event shall have taken nail service. Now, such being the case, re cannot understand the policy or wislom of having called for tenders for a longer period than one year. The pres-Dominion would become responsible for it for two-thirds of that time. Now, we the Dominion and all other parties to make the contract for a longer period.

FROM NANAINO - The steamer California Capt. Hayes, arrived, yesterday afternoon, from Nanaimo, where she partly loaded with coal. She was unable to procure a full cargo enaccount of the miners being on a strike. The ragineer who was in charge of the engine at he mouth of the pit, did not stop work with he rest of the men, and refused to do so. An attempt was made to blow him up, in his house, after he had gone to bed, by some one throwing a bottle or powder and a lighted fuse into his bed-room. Fortunately he discovered it before the powder ignited. t also frightened the Chinamen and Indians, and caused them to stop work. We believe the drike was caused by the company wishing to reduce the wages of the miners. It is rery likely the difficulty will be arranged shortly. The steamer George S. Wright arrived at Nanaimo on Wednesday, from Sitka. She will have great difficulty in getting coal.

H. B. M. S. Zealous, 14th September, 1870. My DEAR MAYOR :- Allow me to express to you and the gentlemen who joined in giving us so handsome an entertainment last night, our sense of the compliment and of the kindness and courtesy shown us, which we shall carry the rememberance of when far from your hospitable shores. I need not say how gratified we were to meet so many of your fair countrywomen, who, in beauty and elegauce may well vie with, if not outshine, the

belies of the "old country." In leaving San Francisco, we leave behind us our best wishes for the welfare and prospects of the finest country on the face of the globe. As an Englishman, I feel that it is in the hands of men who will develop its resources, and make it go ahead; enterprise and in-dustry being their characteristics.

Please to express to the gentlemen who acted with you last night, our best thanks, and, hoping again to visit San Francisco and renew our acquaintances, I remain, your's truely,

MAGIC SOAP

Directions for Using Robinson's Magic Soap for doing a Large Family Washing in Two Hours, of Five or Six Dozen Pieces.

Hours, of Five or Six Dozen Pieces.

1. Cut up fine a bar of the Soap, and put one-half of it into your boiler with sufficient water to cover well your white clothes to be washed, and let the Soap dissolve; then put your clothes in, stirring them, and let them just come to a boil; then pour out clothes and water inte a tub and let them soak twenty or thi ty minutes, stirring them round in the tub occasionally to loosen the dirt. Such articles as collars, wristbands or any ar icle very dirty, should be rubbed through the hands a little while soaking in order to thoroughly loosen the dirt before boiling.

2. While your clothes are soaking put the other half of your cut Soap into your boiler, with sufficient clean water to boil, and let it be heating. After your clothes have soaked wring them out well and put into your boiling water, and let boil from 5 to 10 minutes; then rinse, blue and hang out to dry. If the above directions are followed, we will guarantee your clothes clean and white.

3. For your celored and woollen clothes use the same.

3. For your celored and woollen clothes use the same rater you soaked and boil your white clothes with, only eating it up again, and pour it over your colored and roollen clothes, and let soak the same as your white heating it up again, and pour it over your colored and woollen clothes, and let soak the same as your white clothes, also rubbing them through your hands while soaking, if very dirty. Then rinse in clear water, warm a your hands will bear, and you will thus accomplish a large washing in two hours.

By cutting up a bar of this Soap into two gallons water, and let boil until thoroughly dissolved, and then leave to cool, you will have two gallons of beautiful SOFT SOAP, as good as Common Soap for general house purposes.
